**Colorado Audio Group launches Vocalize Your Event at

on January 31<sup>st</sup>, 2012, 7pm – 9pm**

**Denver, Colorado** - Searching for live music entertainment? Why Not **"Vocalize"** Your Event? Vocalize Your Event provides a much needed alternative to the stale event entertainment used at many special events. Vocalize ensembles are bringing a cappella music into the 21<sup>st</sup> century.

Vocalize is a new division of Colorado Audio Group. The event production company has expanded its services to offer their clients one stop shopping with in-house entertainment. Vocalize Your Event is an a cappella agency based in Denver, CO. Their specialty is producing world class a cappella vocal groups by bringing together the most talented and experienced vocalists in the business. When you hire a Vocalize group, you are not only getting professional entertainment, you also receive state of the art production services included in your package. They offer performances of Top 40, Country and the Classics.

What makes a Vocalize performance truly one-of-a-kind is their unique use of simulated instrument sounds layered with the human voice. The result is a full band sound created with only 6 microphones! Close your eyes during a Vocalize performance, and you could mistake their 6 singers for a traditional 5 piece rock band.

Are you looking for that **unique** thing that will make your event stand out from all of the others? Are you ready to see something that Denver has never seen before? This event is for all **professionals in the following areas**: Event Planners, Food/Beverage, Fundraising and Nonprofit, Hotel, Music, Media, Promotions, and any other industry that deals with entertainment and events!
